

CP-ZM-1xx-xxN-KBBO

Element of the microduct system used to connect sections of microducts.

Straight connector CP-ZM

main features:

- easy extension of microducts sections and branching of bundles,
- simple snap-in installation without the need for tools,
- multiple use, easy disassembly,
- two snap clips included

sectors:

technical specifications:

CP – ZM -	I7-4N-KBBO	I12-8N-KBBO	I14-10N-KBBO
outer/inner microduct diameter [mm]	7/4	12/8	14/10
microcable diameter [mm]	1,0 – 4,0	5,0 – 8,0	7,0 – 10,0
pressure resistance of the connector [bar]	16		
material	polycarbonate, NBR		
operational temperature	-40 to + 65		
pressure resistance of the microcable sealing [bar]	0,5
