

## Electric RJ-45

Hotswap transceiver SFP + designed for use in transmission devices connected using multimode and singlemode optical fibers.

Transceiver SFP+ RJ-45

### features:

- Transmit-receive system,
- Compatibility with management system (compatibility with devices incl. Cisco, Juniper, Huawei).

### standards and certificates:

- ROHS – Directive UE 2011/65/EU
- EMC - Directive UE 2014/30/EU (EN61000-3-2:2014)
- SFP+ MSA
- 10GBASE-T / 5GBASE-T / 1,5GBASE-T / 1000BASE-T

### sectors:

### technical specifications:

	SFP+-E
Transceiver description	electric
Transceiver type	SFP+
Throughput [Gbit/s]	1 / 2,5 / 5 / 10
Service	1 GbE, 10 GbE
Typical reach [m]	20 (for 10G)
Connector type	RJ-45
Operating temperature range [°C]	0 - 70
DDMI	yes
