

U-1-ŻN-32-40

Used for construction of overhead telecommunications lines as a part for attaching HDPE protective pipes to the pole structure.

U-2-ŻN-32-40

main features:

- support element for HDPE pipes;
- mounted to the pole with a screw;
- clamp shape suitable for pipe diameters of 32-40 mm;
- resistant to corrosion and weather conditions.

technical parameters:

U-1-ŻN-32-40	
design type	reinforced concrete telecommunication/power pole, ribbed
support shape	rectangular
number of holder places	1
holder type	clamp
